ADVISORY TO CANDIDATES AND EXAM FUNCTIONARIES

The Staff Selection Commission (SSC) has observed during examinations conducted in previous years that, in certain instances, Computer Systems provided for the conduct of examinations have been restarted, changed, or otherwise handled by candidates without any reported or genuine technical issue either independently or in coordination with examination staffs. The Commission views such unauthorised or unnecessary intervention with the Computer System to adversely affect the integrity, security, smooth conduct and fairness of the examination.

2. In order to ensure the integrity, security and uniform conduct of SSC examinations, all candidates and Exam Functionaries are hereby instructed that unless specifically carried out by authorised examination staff in accordance with the prescribed examination procedure, the following activities are **strictly prohibited**:

- Restarting or shutting down the Computer System.
- Changing or replacing the Computer/ Monitor.

3. If any candidate experiences technical problem with the Computer System before commencement of the examination **or** during examination, the candidate shall immediately report the issue to the Centre Staff/Invigilator/authorised examination staff. Thereafter, Centre Staff/Invigilator/authorised examination staff shall first assess the problem and take appropriate action, wherever necessary, **with the permission of authorised representative of the Regional Office/IO/Centre Coordinator**, as applicable.

4. If any Candidate or Examination Functionary (EF) is found to have independently engaged in any unauthorised activity, appropriate action shall be taken against them in accordance with the provisions of the relevant rules and notice of examination concerned, as applicable.

5. All Candidates and Examination Functionaries are, therefore, **strictly instructed to refrain from any unauthorised or unnecessary intervention** with the Computer System or examination equipment.
